1.4 Cost
- 1.5 Type of Activity
1.5 Cost

Issues your plan needs to address? Housing; Town centres and/or retail; Economy and Employment; Transport; Natural environment; Built heritage; Community facilities; Public Realm; Design standards

Reasons you told us you need the grant: Technical support is needed to help finalise the NP. We require support to prepare robust housing site assessments in order to identify a reserve site for the NP. We also need help to finalise the plan policies and planning details and to prepare the basic condition statement.

How it will help plan move forward: Without this support the Neighbourhood Plan will not be sufficiently robust or in general conformity with the basic conditions.

Commissioned experts: A local Neighbourhood Planning consultancy, Yourlocale, has been appointed to work alongside the Parish Council. The key personnel include: Gary Kirk; MA, CQSW, MCIH. Neighbourhood Planning Independent Examination Referral Service (NPIERS). Andrew Towlerton. MA, MRPTI. Derek Doran MCIH MBA. Helen Chadwick BSc (Hons) Physics with Astrophysics, PhD Planning for Sustainable Development and Renewable Energy.

Thank you once again for completing the form. We will be in touch shortly with a decision. In the meantime if you have any queries please contact the community rights advice line quoting your grant reference.

Kind regards

The Neighbourhood Planning Team

Contacting Locality

If you have any questions about the programme, please speak to the person assessing your application. Alternatively, please log an enquiry on www.mycommunity.org.uk (via ' get advice') or telephone the advice line on Monday to Thursday 9.30am-12.30pm on 0300 020 1864.
